

ALCOFIX[®]
EMPOWER YOUR EVERYDAY

HWAKGGAEU(WAKIE)

Product Catalog

Healthy Drinking, Clear Tomorrow

Korea has long embraced a vibrant drinking culture, where gatherings over drinks have been more than just indulgence they are a way to connect and share. Alongside this, Koreans developed a unique habit: taking hangover relief remedies before and after drinking, a practice that has become part of everyday life.

Today, a new movement is reshaping this tradition. Especially among younger generations, there's a growing shift toward "healthy drinking" drinking less, recovering faster, and maintaining balance the next day. This has transformed hangover relief from a simple "aftercare" measure into an essential part of smart drinking habits.

The trend is now global. With the rise of health conscious lifestyles worldwide, hangover care products are rapidly gaining popularity, and demand for safe, functional solutions continues to grow.

Hwakggaeu (Wakie) meets this demand blending tradition and science for a healthier, clearer tomorrow.

Nature and Tradition, Perfected

For centuries, Koreans have turned to nature to recover after drinking. From the oriental raisin tree and alder tree to mistletoe, these treasured herbs have been trusted to ease discomfort and restore balance. This wisdom, passed down through generations, is now reimagined through modern science.

Hwakggaeu (Wakie) brings that heritage to life. Crafted only with food approved herbal ingredients, it is developed through precise standardization, active compound preservation, and strict quality control. No unnecessary additives just pure natural power. A hangover care solution where tradition meets innovation, for a healthier, clearer tomorrow.

Empower Your Everyday

ALCOFIX was born from a simple yet powerful idea: to help you live each day with energy and confidence. Originating as a spin-off from RPG LAB, a research company certified by the Ministry of Science and ICT of Korea, ALCOFIX builds on years of dedicated research and innovative technology to create products perfectly suited to modern lifestyles delivering results you can truly feel.

Our mission is to develop solutions that invigorate, protect, and support the body, helping you start every day at your best. With advanced formulation technology, strict quality control, and an unwavering commitment to safe, proven ingredients, ALCOFIX turns science and creativity into tools that bring genuine vitality to your everyday life.

ALCOFIX proudly collaborates with Daejeon University, one of Korea's foremost institutions for traditional Korean medicine and a recognized leader in herbal science innovation. With decades of academic excellence, cutting edge research facilities, and a faculty of distinguished experts, Daejeon University has earned a reputation for bridging the gap between centuries old herbal knowledge and modern clinical science. This foundation of credibility and expertise forms the backbone of our partnership, ensuring that every step we take is rooted in both tradition and proven research.

In Collaboration with Daejeon University

Our collaboration goes beyond simple consultation. It encompasses joint research projects, ingredient efficacy studies, safety verification protocols, and the development of optimized extraction and formulation techniques. By tapping into the university's deep expertise in herbal pharmacology, clinical trial methodology, and bioactive compound analysis, ALCOFIX ensures that each product is designed to deliver measurable, reliable benefits to consumers. This partnership allows us to merge academic precision with real-world application, resulting in solutions that stand up to both scientific scrutiny and everyday needs.

Together, ALCOFIX and Daejeon University are redefining the standards for functional health products. By harmonizing deep-rooted tradition with state of the art technology, we are creating trustworthy, effective, and innovative solutions that not only meet modern lifestyle demands but also truly empower your everyday.

Product Specifications

HwakGaeU

3g X 20 Sticks (1Pack)

- *Product Name: Hwakgaeu (Wakie)
- *Product Type: Herbal Food Supplement (Other Processed Food)
- *Form: Small Herbal Pills
- *Net Weight: 3g x 20 Sticks (Total 60g/1Pack)
- *Size: 162mm x 120mm x 47mm/Pack, 110mm x 25mm/Stick))
- *Key Ingredients: Oriental Raisin Tree, Alder Tree, Mistletoe, plus 14 other herbal ingredients
- *Origin: Republic of Korea (Some ingredients may be sourced internationally)
- *Directions for Use: Take 1-2 Sticks with water before or after drinking
- *Storage: Store in a cool, dry place away from direct sunlight and humidity
- *Shelf Life: 24 months from manufacturing date

100% Natural Ingredients

ALCOFIX contains no artificial or synthetic ingredients.

We use only 100% natural herbal ingredients, manufactured in HACCP and GMP certified facilities for complete safety and hygiene.

Pure ingredients and strict quality control so you can trust every single dose.

100% Natural Herbal Ingredients

At ALCOFIX, we never compromise on ingredient quality.

We use only 100% natural herbal ingredients that are approved for food use, each selected for its traditional reputation in supporting hangover relief and recovery. Our formula combines 17 carefully chosen herbs, including Oriental Raisin Tree, Alder Tree, and Mistletoe, optimized through scientific analysis and quality verification.

These ingredients go beyond simply being “natural.” Each is rigorously selected to ensure safety, proven efficacy, and consistent results. By honoring the value of tradition while meeting modern quality standards, ALCOFIX delivers a solution you can trust to protect and empower your everyday life.

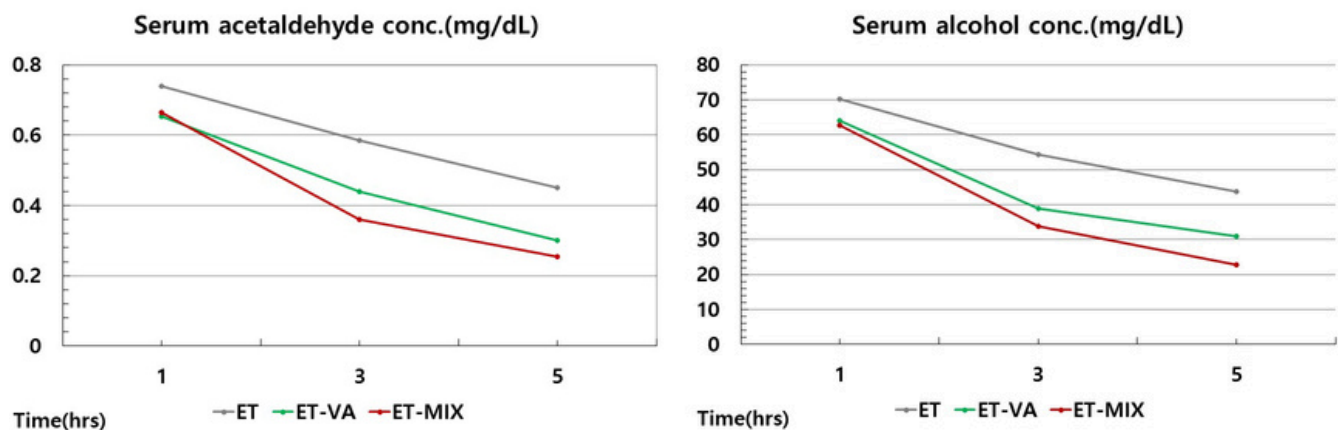

We also carefully manage cultivation conditions and harvest timing to preserve maximum active compounds. This meticulous approach ensures that every batch meets the same high standards, delivering consistent quality and performance that set ALCOFIX apart.

Scientifically Proven Reduction of Alcohol & Acetaldehyde

At ALCOFIX, we don't rely solely on tradition we back our claims with science.

Tests conducted by the Korea Research Institute of Life Science demonstrated that Hwakggaeu (Wakie) significantly reduces both alcohol and acetaldehyde levels in the body. Acetaldehyde, a toxic byproduct of alcohol metabolism, is one of the main causes of hangover symptoms. Reducing it effectively plays a key role in faster recovery and improved next day well being.

The study was conducted using standardized testing protocols and advanced analytical techniques, ensuring both efficacy and safety were scientifically verified. Backed by these results, ALCOFIX helps you recover faster and face the next day feeling clearer and more energized.

The graphs above present results from a study conducted by the Korea Research Institute of Life Science, illustrating the effects of Hwakggaeu (Wakie) ingredients on reducing blood alcohol and acetaldehyde levels.

- First graph (Serum acetaldehyde concentration) shows the decrease in acetaldehyde, a major cause of hangover symptoms, over time. The ET-MIX group (red line) demonstrated significantly lower acetaldehyde levels compared to the control group (ET, gray line) from 1 hour onwards, reaching the lowest concentration after 5 hours.
- Second graph (Serum alcohol concentration) depicts the change in blood alcohol levels. The ET-MIX group showed a faster decline in alcohol concentration compared to the control group, with a notably lower level after 5 hours.

These findings provide scientific evidence that the ingredients in Hwakggaeu promote the breakdown of alcohol and acetaldehyde, contributing to effective hangover relief.

Inhibiting Inflammation & Neutralizing Free Radicals

Hangover discomfort is caused not only by alcohol and acetaldehyde but also by an increase in free radicals and excessive production of nitric oxide (NO) a key mediator of inflammation—after drinking. These factors contribute to cell damage, fatigue, headaches, and inflammatory responses.

Ingredients in ALCOFIX have been scientifically proven to both inhibit NO production and neutralize free radicals. This dual action reduces oxidative stress and inflammation triggered by alcohol consumption, accelerating recovery and minimizing post-drinking discomfort.

Beyond simple hangover relief, ALCOFIX helps reduce systemic fatigue and cellular damage caused by alcohol, supporting a faster return to a clear, energized day.

Convenience You Can Carry Anywhere

ALCOFIX is designed for the fast-paced lifestyles of modern consumers.

Its individually packaged format makes it easy to carry in your bag or pocket, ready to use whenever and wherever you need it. With no complicated preparation just take it with water you can enjoy it at the office, on business trips, during travel, or after social gatherings.

Hygienic packaging ensures product freshness and consistent quality, so you experience the same reliable effects every time. ALCOFIX offers the perfect blend of portability and performance, making hangover care as simple as it should be.

Safe Production to International Standards

At ALCOFIX, every stage from ingredient sourcing to manufacturing, packaging, and distribution is carried out under a rigorous quality management system that meets global standards. Our products are manufactured in state-of-the-art facilities certified with HACCP (Hazard Analysis and Critical Control Points) and GMP (Good Manufacturing Practice), ensuring uncompromising hygiene and safety.

The HACCP system proactively identifies and controls potential hazards at every stage, from raw material intake to final product shipment, guaranteeing consumer safety. GMP standards maintain consistent product quality by enforcing strict control over raw material storage, equipment hygiene, manufacturing processes, packaging, and transportation.

This internationally recognized production framework is more than just a certification it reflects ALCOFIX's unwavering commitment to quality. It allows us to deliver the same trusted products to customers worldwide, ensuring they experience the same satisfaction every single time.
